EDUCATION

- **Seoul National University**, College of Engineering — B.S. in Mechanical Engineering
Mar 2021 – Present (expected Feb 2028)
 - GPA: 3.67 / 4.3

EXPERIENCE

- **RPM Lab, Seoul National University** (Advisor: Prof. Ayoung Kim) — Undergraduate Research Intern (UROP) | Jun 2026 – Present
 - Research topic: **multi-sensor SLAM on the Spot quadruped robot** (built on PALoc)
 - *(details to be expanded as research progresses)*
- **Social Service Agent**, welfare facility for children with disabilities | Dec 2023 – Sep 2025
(mandatory military service)

AWARDS & HONORS

- **Bronze Prize, 15th SNU College of Engineering Creative Design Festival** | Sep 2026
 - Project: **KIH: Keyboard In my Hand** (see below), developed further for the festival.
 - **User study**: 20 participants, within-subject vs. a TV-style cursor on-screen keyboard; 15 one-minute eyes-free trials. KIH improved from 2.3 to 10.6 WPM (4.6×) with error rate falling 17.2% → 4.1%, overtaking the baseline at trial ~9.
 - **KIH-XR**: the same layout run glove-free on camera hand tracking (MediaPipe, 21 joints/hand → 16 virtual buttons on the phalanxes → the firmware's multi-tap engine ported unchanged), with a per-user calibration wizard. [Source](#)
- **Grand Prize, SNU Mechatronics Competition** | Dec 2025
 - Project: **KIH: Keyboard In my Hand** — a glove-type wearable Hangul keyboard · [GitHub](#)
 - 16 tactile switches embedded across the phalanxes (8 per hand), pressed by the thumbs. Sequential (non-chorded) input; repeated taps on the same button add strokes, mirroring the 가획 (**graphical derivation**) principle of Hangul. Enumerates as a plug-and-play USB HID keyboard — no drivers or companion app.
 - **Results**: KSPC 1.27 (26% improvement over frequency-blind layouts), per-user tap-window calibration, total BOM ₩14,184.
 - **Stack**: Arduino Leonardo (ATmega32u4), native USB HID.
 - **Role**: Team of 4, team lead (design & pitch). Earned faculty praise for a compelling pitch.

FELLOWSHIPS & SCHOLARSHIPS

- **Hyunsong Educational & Cultural Foundation Scholarship** | 2022; 2026 – Present
 - Advisor-nominated external merit scholarship (annual stipend ₩8M); re-awarded across reselection cycles. Gap in between corresponds to military service.

TEACHING & MENTORING

- **Peer Tutor, "Statistics"** | SNU | Sep 2026 – Present
 - Lead a weekly 2-hour tutoring session: concept review, problem solving and Q&A, with materials I prepare each week.
- **Undergraduate Teaching Assistant, "Introduction to Computing"** | SNU | Mar – Jun 2026; Sep 2026 – Present
- **Mentor, "Nanum Classroom"** | Phronesis Volunteer Corps | Jun 2022 – Aug 2022
 - One-week mentoring camp at Seoya High School (underserved region); led the ice-breaking team
- Mentor, SNU pre-orientation program (Feb 2022); SNU freshman college (Dec 2022 – Feb 2023)
- Mentee, KOSAF Social Leaders Mentoring — Samsung Electronics mentor (Mar 2021 – Dec 2021); National Intelligence Service mentor (Mar 2023 – Dec 2023)

LEADERSHIP & COMMUNITY

- **Founder/Organizer, "Gwanak AI Club"** | SNU AI practitioners community | Mar 2026 – Present
 - ~330 members. A community (KakaoTalk open chat) for sharing AI/LLM news and individual use cases.
- **President, "Zither" band** (vocals & guitar) | Dept. of Mechanical Engineering | Apr 2022 – Sep 2024
 - Led initiative to scale the club from a small to a large organization
- **PR Director, "CISL" Presentation Society**, 31st cohort | SNU | Sep 2021 – Aug 2022
- Organizing Committee, College of Engineering freshman orientation | Jan – Feb 2022

PROJECTS & VENTURES

- **Co-founder, "Kim is Out" startup team** | Mar 2022 – Sep 2022 (*discontinued, no outcome*)
- Completed "Startup Investment Education", SNU Early-Stage Startup Package | Jan 2022

SKILLS

- **Design/Engineering:** Fusion 360, Autodesk Inventor (3D CAD modeling)
- **Programming:** Python
- **Languages:** Korean (native), English — TOEIC 870, Japanese (learning)
- **Interests:** AI/LLM trends (run a practitioners community; continuously track developments)
- **Other:** presentation & pitching, community building, team leadership
